Enforcing the Rules as Written

- Officials are tasked with ensuring teams play within the rules. The rules basically guarantee fair play to the end that no player and neither team gains an unfair advantage over an opponent.
- When officials do not enforce the playing rules, it impacts the purpose of the playing rules. There is no room for personal philosophies or using “game management” to ignore enforcing a playing rule.
- Let’s be consistent from game to game and it starts in the pregame.

Screening

New York State
Girls Basketball Officials
Association, Inc

- Knowing what constitutes a legal screen is imperative.
- Screeners must establish a legal position without causing contact.
- Following a legal screen, a screener is permitted to roll.
- Lastly, defenders cannot be permitted to hold, reroute, push screeners or push through legal screens.

Traveling

**New York State
Girls Basketball Officials
Association, Inc**

- The pre-dribble travel (lifting and replanting the pivot foot, split-feet, and running start)
- The spin move to the basket, the “Euro” step and perimeter shooters taking an extra “hop” just after they receive the ball or just before releasing the try.
- *Focus on identifying the pivot foot.*

Legal Guarding Position

New York State
Girls Basketball Officials
Association, Inc

- Obtaining *an initial legal* guarding position on the player with the ball, time and distance are *not* required. Two feet on the floor and torso must be facing the opponent.
- Officials must recognize when a defender obtains and maintains legal guarding position to correctly rule on block/charge plays and *should not default to a block*.

New York State
Girls Basketball Officials
Association, Inc

Post Play/Three Seconds in the Lane

- Once a player has legally obtained their position as a defender on an offensive post player, they can neither displace their opponent nor be displaced.
- It does not matter whether the offensive post player is “involved in the play” or not to be in violation of the three second rule.
- When this violation is not ruled, the offensive team gains an unfair advantage and increases physically.

Contact On & By the Ball Handler/Dribbler

- Illegal contact on the ball handler/dribbler is inhibiting the ability of teams to start their offense.
- Measure up or “hot stove” touch is permitted to gauge distance.
- **Armbars** and **two hands** on the offensive player are **AUTOMATIC** fouls.
- Defenders body contact by body bumping or leaning their torso into the dribbler which affects their rhythm, speed, balance or quickness is a foul.

**New York State
Girls Basketball Officials
Association, Inc**

Sporting Behavior/Conduct

- Coach and student-athlete behavior should be consistent with an education environment.
- Coaches are expected to stay in their coaching box which extends to the 28 foot line.
- Players' taunting, baiting, finger-pointing, trash talking, and inappropriate gestures shall be penalized with a technical foul.

Faking Being Fouled Mechanic

The mechanic for Faking Being Fouled is:

Two arms at the shoulder level, with open palms move the arms downward, pointing toward the floor. This mechanic is used for the warning, as well as the delayed Technical Foul if there is an immediate opportunity to score.

Examples to follow.....

**New York State

Faking Being Fouled Scenario's

A1 driving to the basket to score and B1 “Flops”. Team B has already received a Team warning earlier in the game for faking being fouled.

1- Ignore the “Flop” as A1 wasn't impeded on her drive to the basket.

2- The official shows the “flopping” mechanic and waits to see the outcome of the immediate drive to the basket before calling a Team Technical Foul.

3- The official calls a Team Technical Foul and kills the play.

Team Technical Fouls: **count toward Team totals**

A team shall be assessed a Team Technical Foul after a team warning has been issued for each infraction:

- 1-Delaying the game on a throw in, free throw and huddling.**
- 2-Failing to have the court ready for play after the final horn.**
- 3-Breaking the boundary plane by the defense.**
- 4-Interfering with the ball after a goal or failing to immediately pass to the nearest official.**
- 5-Faking being fouled.**

Team Technical Fouls: count toward Team totals

When the Team Technical Foul is called, it is reported to the table as a Technical foul against Team “A” not A2. The same goes for reporting the warning to the table, it is a warning for Faking Being Fouled by Team “A”.

If the coach asks which player it was on, you can tell him the number.

Mechanics: Reporting fouls to table

When reporting the new range of players numbers which are 0 and 00 up to 99. The challenge is correctly reporting the number to the scorer's table.

****It is imperative that we use a strong loud voice* to convey the numbers, coupled with the visual hand mechanic. (#72 is verbalized seventy-two, not seven two).**

Layered Plays:

A layered play involves a foul or fouls during the live ball period and a foul or fouls during the dead ball period.

It is our job to identify what fouls occurred during the live and dead ball periods. We need to determine the order to penalize the fouls.

**New York State
Girls Basketball Officials
Association, Inc**

Layered Plays:

A3 drives to the basket, when she goes up to score, she is fouled by B3 and misses. A3 turns around and pushes B3.

How is this adjudicated?

**New York State
Girls Basketball Officials
Association, Inc**

Layered Plays:

A3 shoots two free throws with no players on the lane line. Any Team B player will shoot two free throws, with no players on the lane line for the intentional foul, followed by Team B awarded the ball at the division line opposite the scorer's table.

A3 is charged with an Intentional Foul.
B3 is charged with a Personal Foul.

**New York State
